

INTEGRITY SERVICE EXCELLENCE

The Cyber Recent Graduate Program targets college graduates for a two or three year - full time - training and development program in computer science, computer engineering, electronics engineering or information technology.

Individuals that successfully complete the program receive a permanent civilian position with the Department of the Air Force. Our civilian employees serve as the "front-line" in executing policies and maintain computing and communications infrastructures. Civilian employees provide systems engineering, acquisition, installation, operation, and maintenance of data and voice network to support the U.S. in its global interests.

AIR FORCE PREMIER COLLEGE INTERN PROGRAM

Paid full-time internships are available for college or university sophomores, juniors, and for graduate students.

These summer internships last 10-12 weeks and are offered throughout the country, working shoulder to shoulder with current AFCS employees on challenging and rewarding projects and making a real contribution to the mission of the U.S. Air Force — invaluable real-world experience as you plan your future.

Even better, these Premier College Internships may qualify you for a permanent full-time position at AFCS once you complete your studies. A full-time offer will include a career development plan, a great salary, and all the benefits Federal employees enjoy.
